

# Available Formulations

Every ERx system is different, so it is important to ensure your ERx properly works with our software system by submitting a test script. The information below will guide you through the entire process.

Post-Op Care	Fill Size
These formulations call for Prednisolone Sodium Phosphate 1%, not Acetate 1%. Make sure the formulation you select is a solution, not a suspension.	
Pred+Moxi+Brom: (Prednisolone Sodium Phosphate 1%, Moxifloxacin 0.5%, Bromfenac 0.075%)	5mL & 8mL
Pred+Brom: (Prednisolone Sodium Phosphate 1%, Bromfenac 0.075%)	5mL
Pred+Moxi: (Prednisolone Sodium Phosphate 1%, Moxifloxacin 0.5%)	5mL
Moxi+Brom: (Moxifloxacin 0.5%, Bromfenac 0.075%)	5mL
Pred+Moxi+Ketor: (Prednisolone Sodium Phosphate 1%, Moxifloxacin 0.5%, Ketorolac 0.5%)	8mL
Brim+Dor: (Brimonidine Tartrate 0.1%, Dorzolamide 2%)	2mL
Trop+Phen: (Tropicamide 1%, Phenylephrine HCl 2.5%)	2mL

Combination Therapy	Fill Size
These formulations are NOT preservative-free. They have a small amount of BAK (< .01%). If the formulation in your system calls for preservative-free drops, select that formulation and write, ".01% BAK is ok" in the notes to the pharmacist	
Tim+Bim: (Timolol 0.5%, Bimatoprost 0.01%)	5mL
Tim+Brim+Dor (AM): (Timolol 0.5%, Brimonidine Tartrate 0.1%, Dorzolamide 2%) "AM Formula"	5mL
Tim+Brim+Dor+Bim (PM): (Timolol 0.5%, Brimonidine 0.1%, Dorzolamide 2%, Bimatoprost 0.01%) "PM Formula"	5mL

Ophthalmic Injections	Fill Size
Dex+Moxi: (Dexamethasone Sodium Phosphate 0.1%, Moxifloxacin HCl 0.5%)	1mL

Low Dose Atropine	Fill Size
Atropine+ 0.01%	3.5mL
Atropine+ 0.025%	3.5mL
Atropine+ 0.05%	3.5mL

# Ordering Through Your EMR System

## 1 Locate the Pharmacy

**OSRX Pharmacy** is listed in most ERx systems as OSRX in Missoula, MT. Note that it may appear in the mail order or the retail pharmacy section. OSRX identifying numbers are below.

- **OSRX**  
1120 Kensington Ave., Suite E, Missoula, MT 59801  
**Phone:** (855) 466-1076  
**Fax 1:** (406) 541-6267, **Fax 2:** (866) 515-0196  
**NCPDP:** 2784418 **NPI:** 1588122345 **Surescripts ID#:** PKX27844180551314764

## 2 Product/Formulation Breakdown

- Search for one of the compound ingredients ("Pred" for Pred+Moxi+Brom) and select compound from the EMR list.
- Most ERx systems have our formulations in their database; you just need to search for them and confirm the quantities and strengths match. If a formulation does not appear exactly as it is listed above, we will contact your office to confirm the correct medication before shipping.
- To help avoid this situation, write a message in the notes section of your e-script so the pharmacist knows a substitution is approved. For example: If Pred+Moxi+Brom appears in your ERx as 4mL, but the OSRX formulation is 5.0mL, write "5mL is ok".

## 3 Sending the Test Script

- Under a test patient, search for a new pharmacy or add it in manually with the OSRX info on the previous page, then save it to favorites.
- Search for these formulations and **make sure the strengths and quantities (mL) match**. Under search for medication, for example, start by typing the word "prednisolone."
- If the formulations aren't in the system, try to add them under the free-form compounding tab and save to favorites.
- As a last resort, try sending us a script for prednisolone 1% and add the rest of the formula in the notes section.
  - For example: Select prednisolone 1%, 5mL, and in the notes section put "add bromfenac 0.075%, prednisolone phosphate and 4.0mL is ok".
- Send a test script to ensure the patients phone number and address come through on our end. (They don't always come through properly). **MAKE SURE YOU SEND A TEST SCRIPT**, but don't worry, **WE WILL NOT FILL a script with "TEST" as the patient name**. Save the formulation under the doctor list or favorites so it is easily accessible for future scripts.
